EDUCATION

University of Waterloo

(Sep 2024 - Apr 2028)

Bachelor of Computer Science and Finance Double Major (CFM)

President's Scholarship of Distinction

EXPERIENCE

Kalshi | Special Projects

(Jan 2026 - Apr 2026)

- Used Leaflet / OpenStreetMap to create a map visualization of 500+ Kalshi markets across the world
- Wrote articles for Kalshi News, including an introductory article for beginners (which holds the top SEO spot for "what is kalshi" on search and AI), a recap of the Canada vs US Olympic Gold Medal game (generating 400k+ impressions and a 43% open rate), and the internal proposal "Prediction Markets as the Information Future" which inspired the creation of Kalshi's news arm and led to an offer

Anthropic | Campus Ambassador

(Aug 2025 - Dec 2025)

- Founded the University of Waterloo's Claude Builder Club, hosted 5+ events reaching 1,000+ students
- Held workshops explaining AI concepts (APIs, Agents, Model-Context Protocol (MCP), Alignment)
- Converted 800+ Claude signups across Waterloo through unique in-person and online marketing
- Led the launch of Claude Sonnet 4.5 on campus, hosted a competition generating 20,000+ impressions

RBC Investor Services | Pension Reporting Analyst

(May 2025 - Aug 2025)

- Used Python to automate financial reporting processes responsible for \$1.2 billion in transaction value
- Built statistical models using pandas and Yahoo Finance to forecast institutional client trading patterns compared to the S&P500 and TSX60 indices. Presented work to upper-level executives
- Engineered interactive dashboards serving 500+ Canadian and 100+ international clients

Oakville Centre For Vision | Software Engineer

(May 2024 - Sep 2024)

- Used C# MonoGame and Python to create a web app for eye-tracking goggles. Used it to analyze vision patterns in professional athletes, aiding the clinical practice of optometrist Dr. Ronald Gall
- Focused on data analysis of 8+ tests that examined Vector3s for saccades, fixations, and pursuits
- Collaborated with a hardware team to modernize a 9,000+ line codebase for improved functionality

PROJECTS

Convergence | Founder

- Hosted 2 Tag / Capture The Flag / Turf Wars-inspired games for 80+ friends in Toronto and Waterloo
- Built a full-stack web app supporting 100+ concurrent users, delivering updates, managing gamestate
- Led a team of 8 for 3+ months, managed finances, landed sponsors, ordered/designed merchandise
- Recorded, edited, and directed a [10-minute movie](#) about the entire journey!

SKILLS

- **Programming Languages:** C/C++, C#, Python, Java, JavaScript, HTML/CSS, Racket/Scheme
- **Frameworks & Libraries:** React, Node, NumPy, matplotlib, Pandas, PyTorch, TensorFlow, scikit-learn
