EDUCATION

University of Waterloo

(Sep 2024 - Apr 2029)

Bachelor of Computer Science and Finance Double Major (CFM) | *President's Scholarship of Distinction*

EXPERIENCE

RBC Investor Services - Pension Reporting & Accounting Analyst

(May 2025 - Aug 2025)

- Incoming Summer 2025

Oakville Centre For Vision - Software Engineer

(May 2024 - Sep 2024)

- Created a web platform using **C# Monogame** and **Python** for eye-tracking goggles to analyze vision patterns in professional athletes. Collaborated directly with optometrist Dr. Ronald Gall
- Focused on data analysis of **8+ tests** that examine gaze vectors for saccades, fixations, and pursuits
- Collaborated with a hardware team to modernize a **6,000+ line** codebase for improved functionality

University of Toronto Clean Energy Lab - AI Research Assistant

(Jun 2022 - Sep 2023)

- Applied Crystal Graph Convolutional Neural Network (CGCNN) to examine trends in chemical properties
- Analyzed results for **material discovery** with a focus on developing lithium-ion alternatives for sustainable energy production. Implemented regression models achieving an accuracy of **97%**
- Presented findings to Prof. Oleksandr Voznyy and PhD Students as the group's youngest member

Team Canada Debate - Member

(May 2023 - Aug 2024)

- Represented Canada as **1 of 12** debaters at the 2024 Belgrade World School Debating Championship (WSDC), honing advanced critical analysis, structured thinking, and public speaking skills
- Conducted research across politics, economics, and international relations, engaging with field experts
- Organized 5+ debate tournaments attracting **500+** participants and raising **\$10,000+** for charity

PROJECTS

EdgeFund - A statistical trading assistant

- Created a digital stock broker using statistical methods (beta, percent returns) to select an asset portfolio, outperforming a weighted average of the TSX60 and S&P500 by over **30% in 1 year**
- Used **Pandas** and **NumPy** to pull historical data from **Yahoo Finance API**, updating results in real-time
- Added data visualization with **matplotlib** and ran **Monte Carlo simulations** to optimize portfolio weights

SKILLS

- **Languages:** C/C++/C#, Python, Java, JavaScript, HTML/CSS, Scheme/Racket, LaTeX
- **Libraries:** React.js, Node.js, NumPy, matplotlib, Pandas, PyTorch, TensorFlow, Yahoo Finance
- **Certifications:** Supervised Machine Learning, Advanced Learning Algorithms, Unsupervised Learning
- **Coursework:** Algorithm Design and Data Abstraction, Financial Markets and Data Analytics

SELECTED AWARDS

- Canadian National British Parliamentary Debate Championship - **1st speaker & team in Canada**
- Munk Debates ReSolved Global Debate Competition - **Champion, awarded \$5,000**
- JamHacks VII Hackathon (300+ competitors) - **First Place Overall, Best Use of GitHub**
- American Invitational Math Exam (AIME) Qualifier - **Top 8% Worldwide**
- University of Waterloo Accounting Conference - **Semifinalist, top 8 teams**
